General Information

Mission Statement

The University of Pittsburgh, founded in 1787, is one of the oldest institutions of higher education in the United States. As one of the nation's distinguished comprehensive universities, the resources of the University constitute an invaluable asset for the intellectual, economic, and social enrichment of Pennsylvania, while the international prestige of the University enhances the image of Pennsylvania throughout the world.

The University's mission is to:

- provide high-quality undergraduate programs in the arts and sciences and professional fields, with emphasis upon those of special benefit to the citizens of Pennsylvania;
- offer superior graduate programs in the arts and sciences and the professions that respond to the needs of Pennsylvania, as well as to the broader needs of the nation and the world;
- engage in research, artistic, and scholarly activities that advance learning through the extension of the frontiers of knowledge and creative endeavor;
- cooperate with industrial and governmental institutions to transfer knowledge in science, technology, and health care;
- offer continuing education programs adapted to the personal enrichment, professional upgrading, and career advancement interests and needs of adult Pennsylvanians; and
- make available to local communities and public agencies the expertise of the University in ways that are consistent with the primary teaching and research functions and contribute to social, intellectual, and economic development in the Commonwealth, the nation, and the world.

The trustees, faculty, staff, students, and administration of the University are dedicated to accomplishing this mission, to which they pledge their individual and collective efforts, determined that the University shall continue to be counted among the prominent institutions of higher education throughout the world.

¹ Centers and institutes in the category "University Centers and Institutes" are distinguished by organizational permanence, programmatic autonomy, and an annual operating budget fiscally independent of any other academic, research, and or service unit.

² Centers and institutes listed are jointly administered by two or more schools of the Health Sciences, which includes: Graduate School of Public Health, School of Dental Medicine, School of Health and Rehabilitation Sciences, School of Nursing, School of Pharmacy, and School of Medicine.

Note: The centers, institutes, laboratories, and clinics listed are University of Pittsburgh or University affiliated organizations. They are either single or multidisciplinary in scope, and are generally involved in some combination of education, research or service activities. Each center, institute, laboratory, and clinic is listed under the name of the unit with which it is associated.

Library Collections And Services

Library Collections and Services

The University of Pittsburgh libraries and collections provide an abundant amount of information and services to the University's students, faculty, staff, administrators, and researchers. In fiscal year 2006, the University's 29 libraries and collections have surpassed 4.9 million volumes. In addition, they contain more than 7 million pieces of microforms, and over 50,000 current serials.

Under the administration of the Hillman University Librarian and Director, the University Library System (ULS) includes the following libraries and collections: Hillman (main), African American, Allegheny Observatory, Archives Service Center, Buhl (social work), Center for American Music, Chemistry, Darlington Memorial (American history), East Asian, Engineering (Bevier Library), Frick Fine Arts, Government Documents, Information Sciences, Katz Graduate School of Business, Langley (biological sciences, behavioral neuroscience), Mathematics, Music, Physics, Public and International Affairs/Economics, and Special Collections. Libraries are also located at each of the University's four regional campuses. The ULS maintains a high-density storage area at the Library Facility in the Point Breeze section of Pittsburgh.

The Hillman Library is the largest facility with seating for 1,530 users. It offers an open stack arrangement and an extensive range of library services. Hillman Library houses collections in the humanities and social sciences, and includes area studies, psychology, computer science, maps, and government documents.

In addition to the University Library System are the Barco Law Library and the Health Sciences Library System.

The Health Sciences Library System (HSLs) at the University of Pittsburgh comprises several libraries that support the educational, research, patient care, and service activities of the schools of the health sciences (Medicine, Dental Medicine, Pharmacy, Health and Rehabilitation Sciences, Nursing, Public Health), as well as the hospitals of the University of Pittsburgh Medical Center. The HSLs includes Falk Library of the Health Sciences, The Western Psychiatric Institute and Clinic Library, the Libraries at UPMC Shadyside, and the Children's Hospital of Pittsburgh Libraries. The Computer and Media Center in Falk Library is the primary health sciences facility and service point for audiovisual and microcomputer resources. HSLs Online (www.hsls.pitt.edu) is the gateway to extensive electronic resources for clinical and research needs.

PITTCat, the University of Pittsburgh's online library catalog, provides access to materials held in all University libraries, and currently contains information for more than four million titles. In addition, the ULS provides access to a comprehensive journal and magazine article discovery tool, Zoom!, as well as other online resources such as: Web of Science, Science Direct, and Scopus in the physical sciences, PsycINFO, ERIC and Congressional Quarterly for the social sciences, Historical Abstracts, Philosopher's Index and RILM Abstracts of Music Literature in the arts and humanities, and additional collections of article and newspaper databases from EBSCO, and Lexis-Nexis. These and hundreds of other online resources are available via the Pitt Digital Library at www.library.pitt.edu.

The University of Pittsburgh is a member of the Association of Research Libraries. Through membership in Several Pennsylvania consortia of libraries (PALCI, PALINET, and the Oakland Library Consortium), cooperative borrowing arrangements have been developed with other Pennsylvania institutions.

Computing Services and Systems Development

Computing Services and Systems Development

Information technology has become an integral part of the academic and research mission of the University of Pittsburgh. Worldwide computing, networked information, online collaborations, and technology-delivered instruction are daily experiences at the University's five campuses. Computing Services and Systems Development (CSSD) provides the infrastructure, resources, and support for these services that are utilized by nearly every student, faculty, and staff member.

CSSD maintains the Information Technology Web site at **technology.pitt.edu** to provide the University community with a one-stop source for technology resources as well as technology news and computer security services.

University Computer Accounts and Electronic Mail

Each student, faculty, or staff member receives a University Computer Account at the time of their admission or employment. It provides access to the computing and technology services described below. The account features a unique username that is used in conjunction with a secure password.

University e-mail addresses consist of a username followed by "@pitt.edu" (for example, abc123@pitt.edu). Students, faculty, and staff can read University e-mail online from any location using the Webmail feature available at **my.pitt.edu**. All official University correspondence is sent to a user's University e-mail address. E-mail forwarding options are available at **accounts.pitt.edu** for those who prefer to read their e-mail at another address.

Network and Telecommunications Environment

CSSD provides the network infrastructure and telecommunications backbone for the University community. The University's data network, PittNet, operates over a gigabit backbone that joins hundreds of local Ethernets into a large, geographically distributed network and connects thousands of computers at all five University campuses to the Internet. High-speed, reliable 100mbps Ethernet connections are the standard for University offices. The undergraduate residence halls are fully wired, with one Ethernet port per student. An extensive

consulting and support program is available in the residence halls to support student computing. When off-campus, students, faculty, and staff have access to PittNet through a modem pool of nearly 800 modems. In addition, a Secure VPN service provides students, faculty, and staff with a convenient way to access restricted online library journals, databases, and other University resources at any time and from any location.

The University has undertaken a two-year project to implement wireless network service campus-wide. Wireless service is currently available to students, faculty, and staff in numerous public and departmental locations. Additional wireless locations will be added on an ongoing basis as the Campus-wide Wireless initiative is implemented.

The University's Web portal, **my.pitt.edu**, provides students, faculty, and staff with a single point of Web access to the information and applications that they use most at the University. The portal makes it possible to check e-mail, view grades and class schedules, pay tuition bills online, and read local news and weather from one convenient location. The portal interface can also be customized according to a user's preferences. University units and schools can easily disseminate information to their faculty, staff, and students through the various portal communities.

Extensive telecommunications support is provided to more than 26,000 telephones. Telephone service to the residence halls is also provided. Voice mail, cellular phones, calling cards, and audio conferencing are available as well. University units can utilize the Telephone Conferencing Service to hold secure, on-demand conference calls at any time, day or night.

Resource Environment

The Technology Help Desk is available 24 hours a day, seven days per week, by calling 412-624-HELP [4357] or by submitting a problem report online at **technology.pitt.edu**. The Technology Help Desk provides troubleshooting and problem resolution, and answers "how to" questions on a variety of information technology issues. Instructional documentation is also available at **technology.pitt.edu**.

Computing Services and Systems Development (continued)

Students have access to computing resources and services via seven computing labs at the Pittsburgh campus. The labs offer more than 600 computers running Windows, Macintosh, Linux, and UNIX. Computers are equipped with more than 100 of the latest software applications and tools as well as CD writing capability and USB ports. Each lab features several media stations that offer CD duplication, scanning, and image processing capabilities. Printing services include high-speed print capability in all facilities and color laser print capability in the Lawrence Hall computing lab. Lab locations, hours, and equipment lists are available at technology.pitt.edu. In addition, more than 100 e-mail kiosks are distributed throughout the Pittsburgh campus, providing convenient locations for students to check their e-mail or to browse the Web between classes.

CSSD's spam and virus e-mail filtering service stops dangerous viruses and unwanted e-mail from reaching the @pitt.edu e-mail addresses of students, faculty, and staff. Students, faculty, and staff can also use the Pitt Software Update Service at updates.pitt.edu to protect their Windows computers from viruses and security vulnerabilities. The Pitt Software Update Service downloads and installs the latest Microsoft security updates and service packs locally from the University's network. CSSD also provides anti-spyware software, available at no cost at software.pitt.edu, to help protect Windows computers against harmful spyware programs.

CSSD has implemented a Central Directory that is the authoritative, centralized database of all individuals affiliated with the University. It includes information about students, faculty, and staff as well as various other classifications of individuals associated with the University. A unique feature of the Central Directory is the Find People online directory service, which allows users to conduct a search for individuals at Pitt using their last name or University Computer Account username.

Support Environment

The University's Network Operations Center (NOC) monitors and manages critical University business and academic systems

around the clock to ensure availability and to prevent service interruptions. Computing Services and Systems Development offers a consulting and evaluation service to University departments on a contractual basis. Through the contract program, systems analysts and technical professionals can be hired, from one to five days per week, to provide dedicated, high-level, on-site consulting.

CSSD has also established the Expert Partners program to provide departmental technical staff with access to CSSD resources as well as liaison and training services. This program is designed to assist the departmental staff analyst in delivering high-quality support within his or her own department, coordinated with the overall direction of services provided by CSSD.

CSSD's Academic Computing program offers desktop support for faculty members as well as assistance with the Faculty Computing Program – a program that provides the latest computer software for faculty participants.

Students are provided an extensive array of software applications and utilities at no cost. The Microsoft Campus Software for Students program provides Microsoft applications and operating systems to Pitt students free of charge. Students can receive software upgrades while enrolled at the University and may retain the software when they graduate. CSSD also offers mathematics, statistics, utility, and Internet software products without charge or at greatly reduced prices. Each fall, CSSD produces the *Software Toolkit CD* that includes essential programs to make computing at the University of Pittsburgh as productive as possible. The CDs are available at any campus computing lab or at Software Licensing Services, 105 Bellefield Hall.

In addition, CSSD provides the University community with an Electronic Software Distribution service (software.pitt.edu) that permits students, faculty, and staff to install software that is available free of charge according to the University's enterprise and site license agreements.

Institutional Advancement

Institutional Advancement

The mission of the Office of Institutional Advancement is to “Inform and Involve to Inspire Investment.” To achieve this mission, Institutional Advancement seeks to: 1) *inform* alumni and friends about the University through personal visits, coordinated events, targeted communications, and stewardship activities; 2) *involve* alumni and friends in the life of the University; and 3) *inspire* alumni and friends to help shape the University’s future through their *investment* of philanthropic gifts.

In 2006, the University announced that it was extending its Discover a World of Possibilities capital campaign and increasing its goal from \$1 billion to \$2 billion. At the close of the fiscal year, the campaign had raised \$960 million in gifts and pledges. A major focus of the campaign has been to increase the number of University endowed funds, which provide perpetual support for the University. At the end of fiscal year 2006, the University had 1,727 endowed funds, a 95% increase in the number of funds at the beginning of the campaign. To date, more than 114,000 donors have contributed to the campaign. Of these donors, 171 have given \$1 million or more to the University.

In fiscal year 2006, the University acquired more than \$117 million in outright gifts from private sources, making this another record-breaking fundraising year for the University. Individuals gave more than \$50.3 million; corporations gave nearly \$17 million; foundations gave \$35 million; and other groups and sources contributed \$14.4 million.

Institutional Advancement’s staff members promote and mobilize volunteer activities in support of fundraising, they coordinate alumni advocacy efforts, and they perform other functions in support of the University’s mission. One important fundraising program is the Annual Fund, which provides potential donors with opportunities to support the University at every dollar level. From small donations which help fund day-to-day operations to large gifts which endow entire programs, the generous support of devoted Pitt alumni, friends, parents, faculty, and staff is critical to Pitt’s mission. In fiscal year 2005, 45,582 donors, more than in any previous year, made gifts to the University’s Annual Fund.

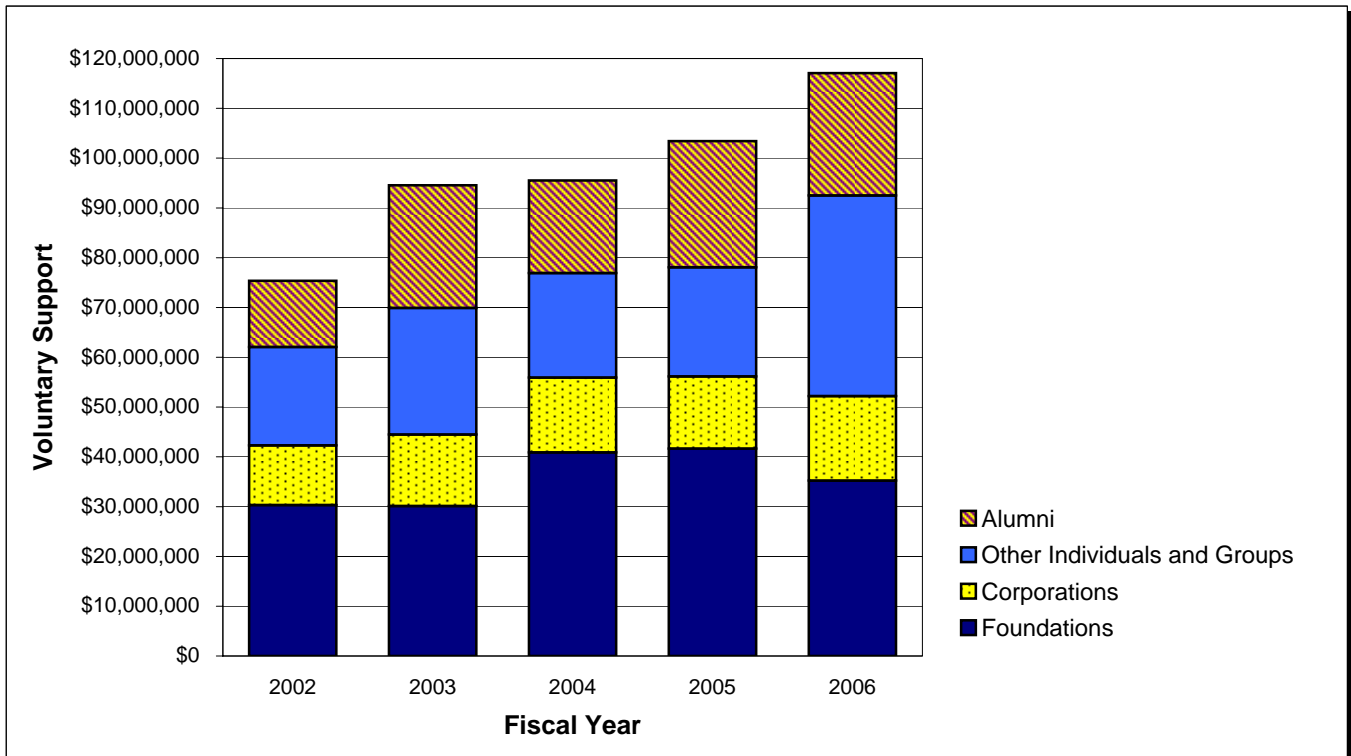

Institutional Advancement’s Planned Giving department assists the University’s alumni and friends in arranging charitable gifts that are executed over an extended period of time or at some point in the future. These contributions, which may provide powerful tax benefits and sources of income to donors, can be made through gifts of life insurance, through life income gifts, or through a number of other donor-friendly options.

Corporate and Foundation Relations staff act as liaisons between individuals at the University – faculty or various other departmental personnel – and representatives of local, national, and international corporations and foundations. The purpose of this effort is to connect University funding needs with the philanthropic interests of donor organizations. In addition, the University participates in a corporate matching gift program through which numerous corporations match eligible gifts made to the University by their employees.

The University’s alumni number nearly 242,000 and reside in all 50 states, the District of Columbia, four U.S. territories, and in 160 foreign countries. The Office of Alumni Relations and the University of Pittsburgh Alumni Association together promote mutually productive relationships between the University and its alumni. Alumni Relations staff foster the continued connection of alumni with Pitt after graduation, as alumni link the University’s past with its future. Additionally, Alumni Relations staff direct the Blue and Gold Society, an organization of outstanding student leaders who represent the University at alumni and community events. The Alumni Association charters a growing number of Pitt alumni clubs, works to influence government offices to fund and nurture higher education, and assists the University in its efforts to attract and support high-caliber students.

Institutional Advancement also administers activities held in the Heinz Memorial Chapel, a Gothic building famous for its magnificent stained glass windows. The Chapel is a focal point of campus life for students, faculty, staff, and alumni. It provides a place for worship services, concerts, lectures, memorial services, weddings, and individual reflection and meditation.

APPENDIX

This appendix includes the following three Fact Book tables that were previously found in the Faculty and Staff Information section (**note that these tables should be used for informational purposes only**):

1. Full-Time and Part-Time Employees by School and Employee Type, Pittsburgh Campus, Regional Campuses, and University Total, Fall Term 2006
2. Full-Time Employees by Race and Sex, Pittsburgh Campus, Regional Campuses, and University Total, Fall Term 2006
3. Selected Characteristics of Full-Time Employees, Total University, Fall Term 2006

These three tables have been moved to this appendix as they have been replaced with revised tables.

The revised tables now include, in the Research Associate category, both Research Associate and Post Doctoral Associate employees. The revised tables are those currently included in the Faculty and Staff Information section of the Fact Book.

Note that this table should be used for informational purposes only. Revised data, found in the table currently located in the Faculty and Staff Information section, supercede these data.
